

# Bridgeway Shop Property Value-Add Fund

## Jun 2020 Factsheet

Performance, Holdings, Portfolio Breakdowns and Characteristics and Net Assets as at 30 Jun 2020.

**IMPORTANT:** The Fund's investment portfolio concentrates in the shop property sector of the Hong Kong market. Such concentrated investment strategy may result in greater degree of volatility and risk than a diversified investment strategy. There is a risk of capital loss as the Hong Kong shop property market fluctuate. The Fund may allocate a high proportion of its assets to a single property.

Shop properties are inherently difficult to value due to their unique and particular features. As a result, valuation is subject to uncertainty and is a matter of an independent valuer's professional judgement. There is no assurance that the estimates resulting from the valuation process will reflect the actual sale price even where a sale occurs shortly after the valuation date.
